Dear Mr. Fisher:

After our conference on 11 October, I drafted the enclosed memorandum for the information of our Control Officer, who is responsible for liaison between this office and State Department. I believe this is a substantially accurate summary of our discussion and, as indicated by the initials opposite their names, it has been concurred in by Mr. Thompson of State and [REDACTED] of our office. If it appears satisfactory to you, we would appreciate it if, as suggested by you, this copy were placed with other documents concerning CIG which you have on file in your office.

If you have any questions or suggestions, please write this office directly. The assistance of yourself and [REDACTED] in helping us work this matter out is much appreciated.
